Re: April Forestry Activities Report

- Spring tree planting sites were located and residents were notified of upcoming planting. 69 trees will be planted this spring.
- I worked with Brian Wahl from the WIDNR regarding a tree root/sidewalk study that we are partnering on in Stoughton.
- 40 bare root trees were delivered in April. 2 volunteer members of the Tree Commission assisted with installing the trees in the gravel bed nursery located south of the Public Works building. These trees are part of a grant secured through the WIDNR to provide free trees to Stoughton residents who have lost trees due to Emerald Ash Borer.
- A Forestry Intern was hired for the summer of 2021. Tyler Drost is a student at UW Stevens Point and should be a good fit for the City of Stoughton.
- I helped to coordinate a Cub Scout tree planting project at Amundson Park on the city's east side. Dozens of small white pine saplings were planted near the disc golf course.
- Unfortunately, the trees which were received from the DNR for Arbor Day did not survive through to the distribution date. Arbor Day celebrations were cancelled this year due to COVID-19, but free trees were made available for students anyway.

Respectfully Submitted,

John Kemppainen, C.A.
City Forester

TREE COMMISSION MEMBERS
